

DRAMCO_

FRACTIONAL EXECUTIVE SOLUTIONS FOR SMES & SCALE-UPS

WHAT WE DO

DramCo_ provides fractional executive solutions to time stretched business owners, from start-ups to fully established businesses, giving you access to senior-level leadership, operational expertise and strategic clarity - without the cost or commitment of a full-time executive.

In contrast to traditional consulting models we get our hands dirty. We embed ourselves within your business, acting as part of the team and helping you to strengthen operations, align people and processes, building the systems required for sustainable growth; Yes, that's while building out those roles and facilitating the onboarding of your future hires. Reducing the stress of hiring.

HOW WE WORK

Our model is built on flexibility and accessibility.

We offer a range of flexible payment methods:

- Project-based support
- Retainer agreements
- Bespoke quoted proposals

With services starting from £250 per month, the barrier to entry is low for SMEs, with block or hourly based options too.

WHO WE HELP

We support a wide range of businesses and entrepreneurs in most industry or sector who are ready to scale, reinvest and grow. Though may not yet feel fully confident about the road ahead.

We also work with those who have previously attempted to scale and now need clearer guidance to succeed.

Our services are equally valuable for established businesses and teams that require renewed direction, energy and purpose - as well as those that are looking for an experienced, temporary non-exec to step in on projects, as a gap-fill for absence or other.

We also offer monthly caps or pay as you go - so you stay in full control of costs - No fees or surprise invoices.

Furthermore, our services are provided fractionally so you are never tied in for longer than 30 days unless otherwise agreed. This keeps you agile and ensures you only pay for the support you actually use.

It's time to start paying only for productive time.

OUR SERVICES

Fractional Executive Support

Operational leadership, strategy development, process improvement, project and team management designed to create stability, efficiency, and readiness for growth.

Digital Solutions

Process mapping, business automation, CRM implementation, AI assistants, bespoke system builds, MVPs and full-stack (no-code) application builds, as well as website development.

Social Media & Communications

Web design, branding, copywriting, SEO, PR, content creation, and ongoing management of your online presence.

Administrative & PA Services

Project coordination, email and diary management, travel arrangements, paperwork, and reliable support to free up time for business owners.

Executive Mentoring & Corporate Training

Leadership coaching, business advisory, sales training, tailored learning programmes, and non-executive advisory roles.

Apprenticeships & Workforce Development

Modern apprenticeships, employer training frameworks, digital skills programmes, and pre-employment courses to build talent pipelines and close skills gaps.

WHY DRAMCO_

By working with DramCo_, you gain access to experienced professionals who can deliver immediate impact while preparing your business for long-term success. You remain in control of your costs and commitments while benefiting from clarity, structure and momentum.

For the equivalent cost of a National Living Wage Employee (UK) you could have a Fractional Executive delivering and shaping that role for your next full-time hire making us the smarter, more efficient way to scale.

Whether you need to stabilise operations, accelerate growth or reignite your team with purpose - DramCo_ The practical and cost-effective solution designed specifically for businesses looking to scale.
